IEEE
ieee.org

With more than 400,000 members worldwide, IEEE is a renowned institution fully dedicated to fostering technological innovation and excellence for the benefit of humanity. It is the world's largest technical professional society geared towards serving the global community involved in all aspects of science and technology underlying modern civilization.

IEEE MOROCCO SECTION
ieee.ma

Since its inception in 2004, the mission of the IEEE Morocco Section is to contribute to the socio-economic development of Morocco, through the reinforcement of scientific and technological innovation, R&D and entrepreneurship. Its activities extend from academic institutions to business and industry professionals based both in Morocco and abroad. Its national and international meetings, workshops and conferences bring together the best experts, researchers, academics and policy makers, who gather in events combining featured conferences, customized training, expert's panels, exhibitions, business networking and high profile social gala dinners.

Advancing Technology For Humanity

IEEE

CIST is part of the IEEE INTERNATIONAL CONFERENCE SERIES that are held in Morocco. It is jointly organized by the IEEE Morocco Section and the IEEE Morocco Computer & Communication Joint Chapter. After holding the first and the second edition in Fez, the IEEE international Colloquium in Information Science and Technology is emerging as a major forum whose aim is to promote the exchange of the latest advances achieved by IT researchers, IT decision makers, IT managers, application designers and software engineers in the domain of computer based information and communication sciences. In it, experts in the worlds of academia, business and industry will be able to discuss a variety of topics ranging from challenges in information management and governance to cutting edge technologies in the domains of Smart Systems, Internet-Of-Things, Multimedia and Automatic Arabic Language Processing. The 2014 edition will include state-of-the-art lectures and tutorials given by world class speakers. It will, at the same time, provide a platform to incite technology transfer as well as business networking initiatives, and to endorse innovative and original business ideas.

R&D EXPERTS CONFERENCES

The event will consist of plenary as well as invited and industrial sessions.

World renowned speakers from France (Ecole Centrale Paris), Italy (CNR, University of Pisa), Luxembourg (European Commission), the United Kingdom (University of Manchester and Bedfordshire) and Morocco (ENSIAS and EMI) will perform in the plenary sessions, while Moroccan and foreign experts will animate the Invited and industrial sessions, together with tutorials, panels and exhibitions.

A gala dinner will be offered to the participants and guests together with a trip to the historical blue city of Chefchaouen.

INVITED & INDUSTRIAL SESSIONS ROUNDTABLES, EXHIBITIONS AND NETWORKING

In conjunction with the plenary sessions, specialized sessions which will cover the latest advances in the areas of Internet Of Things and Smart Systems, automatic Arabic language processing, and Multimedia Technology will also take place. Industrial sessions will be run by business executives to present their innovations and explain the challenges they face in today's market. Technology experts will, on the other hand, present their innovative solutions in areas such as ERP, governance, standards, embedded systems, competitive intelligence, e-government and online education.

These sessions will be followed by panels and roundtables to enable discussions and exchanges between participants and stakeholders from both the world of academia and the socio-economic sector. This will allow the establishment of partnerships, and the creation of a knowledge hub, setting, by this, the foundation for future projects.

SOCIAL EVENT

In order to offer the best environment and climate for the exchange of ideas between all participants and partners, and to enable the creation of new collaboration projects, the social program will be spread over a three day period and will include:

☑ Welcoming ceremony
☑ A traditional Moroccan gala dinner
☑ Coffee Breaks and lunches
☑ A trip to discover the historical city of Chefchaouen
☑ Networking and meeting spaces at the conference hall

Distinguished Keynotes

IEEE CiSt'14

Prof. Marie-Aude Aufaure

Ecole Centrale de Paris, France

Big Data, Business Intelligence and Analytics

Prof. Mohammad Essaaidi

Director ENSIAS, Rabat, Morocco

Assistive Technologies for Communication

Tetuan - Chefchaouen / 20-22 October 2014

TYPOLOGY

Researchers, PhD students, engineers and industrial executives, professionnels, and national and international policy makers working in the fields of:

☑Research, development, engineering, technology transfer and innovation
☑Scientific, technological, strategic and economic development
☑Public Relations and External Alliances
☑Intellectual property, patents
☑Industry solutions and innovative SMEs
☑ Governance and Strategic Management

PARTICIPANTS

200-300 participants from:
☑ **Morocco**
☑ **Maghreb**
☑ **Middle-East**
☑ **Europe**
☑ **Asia**
☑ **North America**

ORGANIZING COMMITTEE

CONFERENCE GENERAL CHAIR:
Prof. Mohammed El Mohajir
