

CALL FOR PAPERS FOR THE INVITED SESSION ON INFORMATION AND MULTIMEDIA PROCESSING

An invited session on “**Information and Multimedia Processing**” will be held on 20th of October 2014, in parallel with the IEEE CIST’2014 international conference.

Information processing techniques are an important ingredient of modern multimedia systems. The study profile provides knowledge in hardware and software components for processing, storage, coding, transfer, and analysis of various types of multimedia information (signals, images, video and data (text or script)). **Information processing has applications** in communication networks, mobile ubiquitous systems, man-machine interaction, multimedia, medical informatics, security systems, biometrics, bioinformatics, and other areas of modern information society.

The main objective of the session is to bring together researchers interested in the area of the Information and Multimedia Processing to exchange the latest advances achieved by researchers and to foster the discussion of the future of this research area.

The invited session will also include a lecture by an invited keynote speaker.

Topics

We solicit submission of original ideas and papers describing significant results and developments from both researchers and practitioners in a specific range of fields addressing the following topics:

- Speech and Spoke language processing.
- Textual data processing
- Image and video processing
- Image, video and information indexing and retrieval

Chair

Prof. Mohamed El FAR, FSDM, USMBA, Fez, Morocco

Program Committee (Under Solicitation)

Lahcen MOUMOUN, EST, Berrchid, Morocco
Youssef BALOUKI, FST, Settat, Morocco
Khalid ABBAD, FST Fez, Morocco

Tajje-eddine RACHIDI, AlAkhawayn University, Ifrane, Morocco

Ilham CHAKER, FST Fez, Morocco

Jamal KHARROUBI, FST Fez, Morocco

Abdelmounaim LACHKAR, ENSA, Fez, Morocco

Aicha MAJDA, FST, Fez, Morocco

Arsalane ZARGHILI, FST, Fez, Morocco

Khalid ZENKOUAR, FST Fez, Morocco

Mohamed CHAHOU, FSDM, Fez, Morocco

Papers submissions

Prospective authors should submit by using the [online paper submission platform](#), an extended abstract of up to 6 pages describing their original work using the IEEE template.

Publications

Accepted papers will be published in the proceeding in the IEEE Xplore Library. Furthermore, Authors of high quality papers will be invited to submit an extended version of their work for potential publication in a special issue/section of an international journal.

Accepted papers must be registered; otherwise they will not be included in the IEEE Xplore Library.

Deadlines

Paper Submission	May 30, 2014
Acceptance Notification	June 30, 2014
Camera-ready Submission	July 15, 2014
Author Registration	July 30, 2014
Invited session Date	October 20, 2014

The first author is limited to submit a maximum of 1 paper and at least one of the co-authors of every paper should register.
